

Planning an Event?

Use the Unit Calculator below to give you an idea of what is needed to accommodate the event so that things go smoothly for you and your guests. These quantities are based on a safe recommended amount, without service during the event. If service is provided at the event, fewer units may be used. Give us a call for any questions or concerns you might have and we would be happy to help. **306-384-0019**
