# Ordering Bricks

Bricks that are available on-site location at the store can be Pre-Ordered, which are then reserved upon your arrival at our store location. If the brick you are requesting is not in stock, it would have to be ordered with payment. Once the bricks are in stock you will be notified.

Some Brick Orders can take between 3 days to 6 weeks because they are not in stock (on-site location) or available in Saskatchewan. The time wait is dependent on how long it takes the specialists to make the bricks as well as the season. All bricks are manufactured especially for you, and you will be notified when they become available.

Color availability and sizes may vary as some bricks may be discontinued. Some bricks may be discontinued for one year but then available the next depending on the materials available to make the brick as well as the specialists who make them. Any discontinued bricks located on-site will be 10% OFF. Any bricks that have been discontinued for more than 2 years will be 60% OFF. A list of discontinued bricks can be found on the website www.allanslandscaping.com or you can come by the store and take a look at all the bricks we have in stock at any time.

When placing an order for bricks for pick up or for delivery when the brick has to be ordered requires a **mandatory 50% deposit on all brick orders before proceeding (which is nonrefundable)**. This is due to the specialist specifically making the bricks for you for your order.

Prices may be changed at any time without further notice as we reserve the right to change our product's prices at any time without further notice. Please call for our latest pricing.
